INSTRUMENTS DONATIONS COLLECTION FORM

Dear donor, we thank you very much for your kind and generous intention to donate some instruments to our brass band! We, the children of the Kamuli Community Brass Band (KCBB), are committed to make the best possible use of your donated instruments, according to our 3rd Band Value:

Commitment: As our tutors commit themselves to us, we are full of promise to faithfully devote ourselves to beautiful music, diligent study, fruitful work, purposeful service.

Please note: this document is an information request to base our future instrument donation agreement upon.

It serves the purpose of letting us know which instruments could be donated, in which state of playing functionality they are, and where they need to be shipped from to get to us in Kamuli, Uganda.

The part about shipping & customs costs it to let us know if we have the financial means to accept your donation, or whether we would need to find an agreement on sharing the shipping & customs cost between us as part of the donation: with our own means, with your help, or with a third party donor who could take care of these costs - seen the limited means we have as an NGO / Brass Band.
